

Customer Support Contact Channels

Available support channels, their hours of operation, and best-use cases.

Document ID	KB-CS-001	Version	v2.2
Owner	Customer Experience Team	Last Updated	20 Sep 2026

1. Available Channels

Channel	Best For
In-app / Website Chat	Order issues, tracking, general queries
Help Center / FAQs / Self-Service	Returns, policy lookups, return/refund status
Call Centre / Hotline	Payment disputes
Email / Support form	Complaint submission
Social Media (Facebook, Instagram)	General inquiries

2. Before Contacting Support

- Check order status and tracking details under “My Orders”, as many queries are resolved there directly.
- Review the Help Center article for the relevant topic (return, refund, delivery) as first line of self-service.
- Have the order number ready — this is required to open any support ticket.

3. Escalation Path

- Level 1: Live Chat / Call Centre agent handles the initial request.
- Level 2: Unresolved or complex cases are escalated to a Senior Support Specialist within 24 hours.
- Level 3: Cases involving fraud, safety, or repeated failures are escalated to the Trust & Safety or Payments team for direct handling.

4. Language Support

Support is available in English and Urdu across all channels; regional language support may be available on a limited basis through the call centre depending on agent availability.

Note: Support agents will never ask for a customer's full card number, CVV, or OTP over chat, call, or email. Any such request should be reported as suspected fraud.

This is a sample/demo policy document generated for knowledge-base and chatbot training purposes. It is illustrative content, not an official Daraz publication.
