

Delivery Process Guidelines

How an order moves from confirmation to doorstep, including delivery attempt rules.

Document ID	KB-DEL-003	Version	v1.9
Owner	Logistics Operations	Last Updated	19 Sep 2026

1. Order Lifecycle Stages

- Order Confirmed — payment or COD order successfully placed.
- Packed — seller or fulfilment centre prepares the item for handover.
- Shipped — item handed to the courier partner and assigned a tracking number.
- Out for Delivery — item is with the local rider/courier for final delivery.
- Delivered — order marked complete upon customer receipt confirmation.

2. Delivery Attempt Rules

Each delivery attempt includes a call or SMS notification to the customer ahead of arrival. If the customer is unreachable or unavailable, up to two further attempts are made on subsequent days before the parcel is returned to the nearest sorting hub.

3. Express Delivery

- Available for select in-stock products in serviceable metro areas.
- Delivery completed within 24–48 hours of order confirmation for an additional fee shown at checkout.
- Express orders are prioritised at every stage of the fulfilment pipeline.

4. Failed Delivery Handling

- After 3 failed attempts, the order is returned to the hub and the customer is notified via SMS/email with rescheduling options.
- If no response is received within 5 business days, the order is auto-cancelled and any prepaid amount is refunded per the Refund Policy.

Note: Customers can reschedule a delivery attempt or update the delivery address (within the same city) directly from the order tracking page before the final attempt.
