

# Refund Policy Overview

General principles governing when and how refunds are issued to customers.

|             |                          |              |             |
|-------------|--------------------------|--------------|-------------|
| Document ID | KB-REF-001               | Version      | v3.0        |
| Owner       | Customer Experience Team | Last Updated | 10 Sep 2026 |

## 1. When a Refund Applies

- A return has passed quality check (QC) and the customer selected refund as the resolution.
- An order is cancelled before dispatch by the customer or the seller.
- An item could not be delivered after multiple failed attempts.
- A payment was deducted but the order failed to confirm (payment/technical failure).
- A price adjustment or partial refund is approved for a minor, non-returnable issue (e.g. missing minor accessory) at the discretion of Customer Support.

## 2. Refund Methods

| Original Payment Method | Refund Destination         |
|-------------------------|----------------------------|
| Credit Card             | Refunds refunded to source |
| Bank Transfer           | Refunds refunded to source |
| Cash on Delivery        | Refunds refunded to source |
| Daraz Wallet            | Refunds refunded to source |
| Digital Wallet          | Refunds refunded to source |

## 3. Partial Refunds

Partial refunds may be issued when only part of a multi-item order is affected, when a minor defect does not warrant a full return, or when a price-match/goodwill adjustment is approved. Partial refund amounts and reasons are always communicated to the customer in writing before processing.

## 4. Non-Refundable Charges

- Delivery charges are non-refundable for “changed mind” returns, unless the platform-wide free-return promotion was active on the order.
- Cash-handling or COD service fees, where applicable, are non-refundable.
- Gift-wrapping charges are non-refundable once the order has been dispatched.

**Note:** Refund policy exceptions for specific sale campaigns (e.g. extended return windows during mega sale events) are published separately as campaign addenda and override this document for the campaign period only.
