

Seller Onboarding Guide

Requirements and step-by-step process for registering as a marketplace seller.

Document ID	KB-SEL-001	Version	v2.8
Owner	Seller Operations Team	Last Updated	01 Sep 2026

1. Eligibility Requirements

- Valid CNIC (individual sellers) or business registration/NTN (registered businesses).
- An active bank account in the business or seller's legal name for settlement payouts.
- A minimum product catalogue of at least 1 listing with compliant images and descriptions to activate the store.
- Agreement to the Seller Terms of Service and applicable category-specific policies.

2. Onboarding Steps

- Step 1: Complete the Seller Center registration form with business/personal details.
- Step 2: Upload required documents (CNIC/NTN, bank account proof, business registration if applicable).
- Step 3: Await document verification, typically completed within 2–3 business days.
- Step 4: Set up store profile — store name, logo, description, and return address.
- Step 5: Upload initial product listings, following category-specific content guidelines.
- Step 6: Complete a short onboarding orientation covering order management and QC standards.
- Step 7: Store goes live after final review; first products become searchable within 24 hours.

3. Restricted & Prohibited Categories

Certain categories require additional approval (e.g. supplements, baby formula, certain electronics requiring regulatory certification), while others are prohibited outright (counterfeit goods, weapons, hazardous materials, prescription medicines without licensing). The full restricted-items list is maintained separately in the Seller Center compliance section.

4. Document Verification Timelines

Document	Verification Time
CNIC / National ID	1 business day
Business Registration / NTN	2–3 business days
Bank Account Verification	1 business day
Brand Authorization (for branded goods)	3–5 business days

Note: Incomplete or mismatched documentation (e.g. bank account name not matching registered business name) is the most common cause of onboarding delays.
